Make your Move

With the Only Business Intelligence Solution for Student.

If you want more upward movement from your student assets, you need the measurement and the metrics, both operational and competitive.

With RealPage Student Business Intelligence (BI), the only product of its kind, you'll have the insights you need to make the decisions that will keep your business heading in the right direction. With daily updates across your portfolio, you can stay updated and make adjustments during your fast-moving, business-critical leasing window.

Get the internal data you need when, and how, you want it. RealPage's superior multifamily BI tools include, drill-down transparency into key performance indicators (KPIs) at practically any level of aggregation:

MADE-FOR-STUDENT PERFORMANCE

- Student-specific measurements
- Student-specific key performance indicators
- Daily updates across your portfolio
- Automated report delivery
- Custom reporting and ad hoc analysis
- Customizable dashboards
- Portfolio aggregations at any level

RealPage Business Intelligence for Student puts the focus on maximizing profit from each and every bed. It accelerates the value of your portfolio by transforming your data into actionable intelligence using the most accurate insights from the industry's largest lease transaction database. In addition, customizable dashboards help you make the right decisions, faster.

Get the most from your student portfolio and join the movement to RealPage Student.
