What is eSupply GPO?

eSupply GPO stands for Group Purchasing Organization. By pooling together the buying power of our large and growing client base, we can help you secure pre-negotiated discounts with major industry vendors that drive measurable cost savings to your bottom line.

Who Needs eSupply GPO?

All property management companies can benefit from eSupply GPO. If your existing vendor discount is better for you than eSupply's, there is no downside to signing up - keep your existing discount with that vendor!

eSupply GPO can help larger companies obtain discounts with vendors that are often left out of contract negotiations.

What are the Benefits of Making eSupply GPO Part of the Source to Pay Solution?

- A dedicated RealPage contact who provides additional reporting, strategic support and program guidance to uncover additional opportunities.
- Online purchasing and invoicing experience with vendor catalog shopping, providing more directed spend with a reduction in rogue spend.

“Within our portfolio where we have had the eSupply GPO implemented in the last 6-8 months, we have already saved over \$120K.”
